

Glenair Eye-Beam® GLT Expanded Beam Terminus Fiber Optic Connection System General Information

The revolutionary new expanded beam fiber optic connection system from Glenair

Eye-Beam® GLT is supplied as a factory terminated point-to-point jumper. Jumpers are supplied in numerous contact formats for use with most high performance, tactical fiber optic connection systems: MIL-DTL-38999, MIL-PRF-28876, GFOCA, and Series 80 Mighty Mouse, and are suitable for use in hybrid electrical/optical interconnect applications.
