# Head-to-Head Comparison with D38999

## Half the size and weight

- Higher contact density
- Integrated banding platform on connector back end
- Smaller wire gauge (as small as #30)
- Weight for 55 pin contact crimp receptacle: 15g vs 34.6g (D38999/24)
- 67 insert Arrangements Available

# Series 80 Standard Features

## Mighty Mouse facts and figures

- .076 inch contact spacing
- 10 shell sizes, 3 to 130 contacts
- Aluminum shells (Optional SS)
- Beryllium copper retention clips
- Integral shield banding porch or accessory threads
- Environmental seals
- #22 through #28 AWG Wire
- Rear-release crimp contacts

# Series 80 Mighty Mouse Contacts and Layouts

- 12 Shell Sizes
- 67 Insert Arrangements
- From 1 to 130 contacts
- Layouts with #23, #20, #20HD, #16, #12, #8 Cavities
- Signal, Quadrax, Twinax, Coax, Pitot, Pure Gas, Fiber Optic, and Power Contacts
- Stinger

# Series 800 UNF Thread Mighty Mouse

## The smallest and lightest Mighty Mouse

- UNF Threaded
- Ideal for test equipment, instrumentation and sensors
- Plugs, crimp receptacles, PCB receptacles, hermetic receptacles, protective covers and cordsets

# Series 801 Double-Start ACME Mighty Mouse

Ideally suited for environmental, military applications where legacy MS connectors are too large and too heavy

- Heavy-duty ACME threads for fast mating
- Robust keys
- Best availability at present time
- Standard packaging: in-line, square flange, jam nut, PCB and hermetic designs
- EMI/EMP filter options

# Series 811 Mighty Mouse High Density

## High-density ultraminiature connectors

- Micro TwistPin contact system
- 600VAC DWV rating
- 7 to 42 contacts
- 3 Amp current rating
- Water resistant to 1m

# Series 811 Mighty Mouse High Density

## SERIES 811 MIGHTY MOUSE HD CONTACT ARRANGEMENTS

**8-30**  
30 Contacts

**9-42**  
42 Contacts

# Series 802 “Aqua Mouse” Submersible Mighty Mouse

## 3500 PSI submersible connector

- Environmentally Sealed: ideal for 3500 PSI submersible applications
- Threaded UNF Nickel-Aluminum-Bronze coupling connector system
- Viton seals and O-rings
- Stainless steel shells
- Ruggedized packaging

**SHALLOW  
WATER**

# Series 803 Bayonet Lock Mighty Mouse

Rugged design and ultraminiature profile

- ¼ turn locking
- Ideal for hand-held radios, sensors, test equipment, autosport and other quick-disconnect applications

# Series 804 Breakaway Mighty Mouse

## Push-pull quick disconnect

- Ideal for helmets, headsets and other breakaway applications
- Calibrated snap-in mating
- Controlled force in receptacle housing
- Receptacle O-ring provides environmental protection
- EMI/EMP Filter Options

# New Series 824 Mighty Mouse Locking Quick Disconnect

Specifications	
Current Rating	#23 5 AMPS, #16 13 A., #12 23 A.
Dielectric Withstanding Voltage	#23 500 VAC RMS, #12 and #16 1800 VAC RMS
Insulation Resistance	5000 megohms minimum
Operating Temperature	-65° C to +150° C
Shock / Vibration	100 g / 16 g
Shell-to-Shell Resistance, Nickel Plated	2 milliohms maximum
Durability	2000 mating cycles
Breakaway Force	60 pounds minimum

# Series 805 Triple Start Mighty Mouse

Ultra fast mating; meets or exceeds D38999 series III requirements

- Featuring 1 turn to full mate
- Detent clicker mechanism in the plug
- Integral band platform or accessory threads
- EMI/EMP Filter Options

# Series 806 Upgraded Environmental, Electrical, and Mechanical Performance

- Integrated anti-decoupling technology
- High-density 20HD and 22HD
- Durable mechanical insert retention
- Radial seals
- Triple-ripple grommet seals
- 200 C temp rating

# Series 806 Mighty Mouse Mil-Aero: Significant Size and Weight Benefit

Series 806  
Shell Size 8  
.500" Mating  
Thread

D38999/24  
Shell Size 9  
.625" Mating  
Thread

# Series 806 Size Comparison Example

**CANBus, DC, and GND. #20 AWG, 5 wires**

	Series 806	38999 Series III	% Size Reduction
Contact Arrangement	9-5	11-5	
No. of Contacts	5	5	
Contact Size	#20HD	#20	
Mating Thread size	0.563	0.75	24.9%
Plug Coupling Nut OD	0.761	0.984	22.7%
Plug Overall Length	0.967	1.22	20.7%
Square Flange Receptacle Size	0.875	1.031	15.1%
Square Flange Receptacle Length	1.167	1.24	5.9%

# Series 806 Mighty Mouse Mil-Aero

# Series 80 Mighty Mouse Cabling Capability

## Meeting rigorous application requirements

- Polyurethane Jacketing (LSZH)  
-30°C to + 105°C
- Rubber Jacketing (Thermoplastic Elastomer)  
-55°C to + 135°C
- Nomex® -55°C to + 260°C
- Halar® -73°C to + 150°C
- Duralectric™ Jacketing -65°C to 225°C
- Custom Overmolds
- Custom bulk anything from shielded twisted pairs, Coax , 50 ohm , 75 ohm , 100 ohm , mixed/color wire gages etc.

# Series 80 Mighty Mouse Interconnect Cable Assemblies

# Series 80 Mighty Mouse with Fiber Optics

- High bandwidth
- Ultra miniature Packaging
- #16, #20HD and #23
- Singlemode and multimode available

# Series 80 Mighty Mouse *High-Speed*

## With DuPont™ Teflon® insulators

- DuPont™ Teflon® insulators for superior electrical performance in protocol-specific applications like eSATA and USB 2.0/3.0.
- Ultra-Twinax connectors utilizing size #12 Twinax contacts for differential pair applications such as LVDS and CML.
- Size #8 Quadrax and differential Twinax technologies for high-speed 100BASE-T Ethernet applications

# Series 80 Mighty Mouse *High-Speed*

With DuPont™ Teflon® insulators

- Superior electrical performance in protocol-specific applications like eSATA and USB 2.0/3.0
- Series 801, 804 and 805 mating styles available

## High Speed Performance

Impedance	100 OHMS $\pm$ 7 OHMS at 100-Picosecond
VSWR	<1.4 up to 4-GHz

## Insertion Loss

1 GHz	.51 dB
2 GHz	.53 dB
3 GHz	.57 dB
4 GHz	1.2 dB
5 GHz	1.25 dB

# Series 80 Mighty Mouse *High-Speed*

## Size #12 Ultra-Twinax

- The industry's smallest ruggedized impedance-matched Twinax connector
- Suited for multigigabit data rate applications such as CML, LVDS and other advanced digital communications protocols

# Series 80 Mighty Mouse *High-Speed* Size #8 Quadrax and Differential Twinax

- Contact arrangements accept size #8 Quadrax and Twinax contacts for Ethernet or high frequency applications

# Series 80 Mighty Mouse AlphaLink Jumpers

Easy, fast ordering of flex-to-board termination solutions

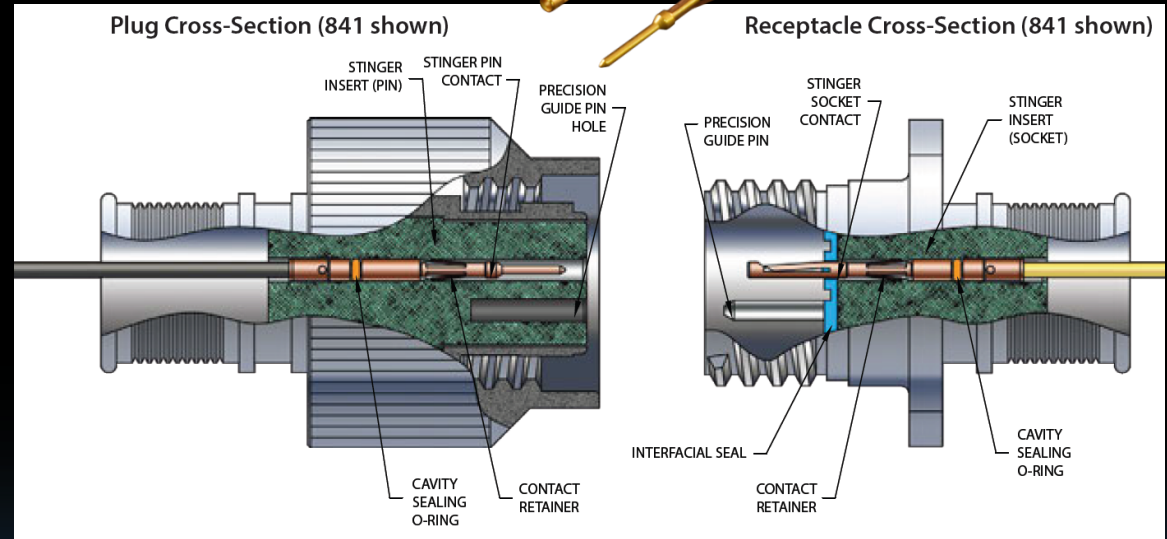

- Mighty Mouse-to-board flex jumpers
- Catalog designs incorporating Mighty Mouse I/O connectors and solderless spring-contact AlphaLink circuit board connectors

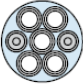

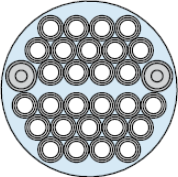

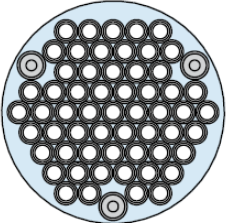

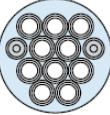

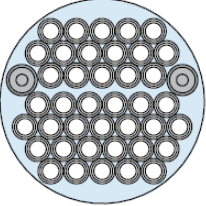

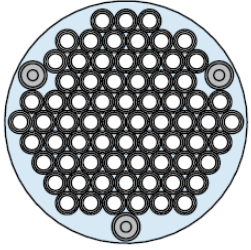

# Series 841 Mighty Mouse with Stinger Contacts

## High-density front release crimp contact

- High-density  
.050" centers
- Front-release  
sealed crimp  
contacts
- Low mating force

# Series 841 Mighty Mouse Stinger Inserts

Insert Arrangements

# El Ochito Octaxial Mighty Mouse

- One full 10G Ethernet channel per size #8
- 100% drop-in solution
- Highest density contact system available

# SuperSeal Mighty Mouse RJ-45 and USB

- IP67 sealing in unmated condition
- Superior grounding
- USB back-to-back, crimp contact, PC tail and solder cup terminations available
- USB Micro A, B and AB versions

# Series 80 Mighty Mouse USB Solutions

Series 801 double-start threaded

Series 805 triple-start

Series 804 quick-disconnect

# Mighty Mouse SuperSeal™ - Micro USB

- Mated IP68 Sealing
- MicroAB and MicroB Interface
- Feedthru or crimp removable contacts

# Mighty Mouse SuperSeal™ - USB Type A

- Mated IP68 Sealing
- Enhanced operating temperature
- Rugged shock and vibration performance

# Series 860 Mouse-Bud™

## Vest-wearable or cable-to-cable tactical pogo pin Mighty Mouse

- IP67, spring contact interface
- 5 Amps
- 2500 mating cycles
- Cobra style plug for optimum EMI
- PC tail or solder cup receptacle
- In-line, square flange in process
