- Qwik-Ty[®], G-Spring and TAG Ring[®] Configurations

Strain-relief, EMC, banding, solid or split-shell; you name it, we've got it for MIL-C-81659 connectors

Many part numbers ready for immediate shipment

Glenair manufactures a full-spectrum line of rectangular backshells for MIL-DTL-81659 connectors. Built from light-weight aluminum alloy and available in a wide range of finishes, our MIL-DTL-81659 backshells provide robust EMI and environmental protection. Solid and split-shell designs are available for cable strain-relief and EMI shield termination.

Top and Side cable entry configurations provide flexibility in contact termination. Selected 81659 backshells, including Qwik-Ty[®], G-Spring and TAG Ring[®] part numbers are available for immediate shipment from Glenair's Same-Day Delivery Program. Check availability instantly on the Internet at www.glenair.com, or call the factory for price and delivery.
