AmberStrand®

Lightweight Metal-Clad Spooled Fiber

Bulk AmberStrand® Single, Double and Triple-ended Spooled Conductive Thermoplastic Fiber

For users of lightweight conductive EMI/RFI AmberStrand® metal-clad composite thermoplastic material that choose to fabricate cable braiding on an in-house basis, Glenair is pleased to provide bulk AmberStrand® material in spools and bobbins. Virtually any spooled configuration is available, including 1, 2, 3, 4, and 6-ended spools, as well as special double-ended spools in standard lengths from 400 to 3000 feet. Consult factory for custom lengths.
