

**PRODUCT FEATURES**

- General Purpose Medium Density Connector
- Quick Release Bayonet Coupling
- Commercial, Industrial and Aerospace Applications
- Solder Contacts (Series I) and Crimp Contacts (Series II) Available
- 9 Shells Sizes with up to 61 Contacts
- Environmental and Hermetic Versions
- Bulkhead Feedthrus, Jam-Nut, Flange Mount and Solder Mount Receptacles
- Complete Range of Material and Finish Options

## Quick Release Bayonet Connector for Both Environmental and Hermetic Applications

### ***Broad Application in Commercial and Military Aerospace***

Glenair MIL-C-26482 Type Connectors are fully compliant and intermateable with qualified MIL-C-26482 Connectors. Equipped with EMI/RFI grounding and environmental sealing, these connectors are ideally suited for general purpose military and commercial applications. Rear-release crimp contacts allow for easy termination and repair.

The wide range of available mountings--including both narrow and wide flange mounts--provide complete flexibility in interconnect system design.
