

Rectangular Connectors

From nano and micro to D-subminiature—the industry’s best performance and availability

Glenair manufactures all of the popular industry-standard rectangular connectors used in military and aerospace applications, including special high-performance versions of the M24308 D-Sub and our revolutionary Series 79 Micro-Crimp connector. We offer a small form factor rectangular connector for virtually every I/O and wire-to-board requirement including MIL-DTL-83513 Micro-D subminiatures and MIL-DTL-32139 Nanominiature. All of our rectangular connector products are available in filter and hermetic versions, as well as with flex circuit terminations. Point-to-point cordsets, pigtails, and build-to-print harnesses are Glenair specialties.
