

# Series III

# The industry standard mil/ aero connector backed with Glenair service and availability

Standard environmental-class MIL-DTL-38999 Series III connectors with DLA certification are now manufactured and supplied by Glenair. These industrystandard connectors are ideally suited for the broad range of harsh environmental land, sea, air, and space applications and are backed with Glenair's industry leading service, support, and availability. Marked with D38999 or Glenair COTS part numbering, these environmental crimp-contact connectors are available in cable plug or mounted jam nut / square flange receptacle shell styles. All standard material and finish classes are supported including W (Cad/O.D. over Electroless Nickel), F (Electroless Nickel), T (Nickel-PTFE) and G (Space-Grade Electroless Nickel). Other RoHS-compliant finishes including Glenair ZR (Black Zinc-Nickel) are also available under Glenair commercial part numbers. Contact arrangements per MIL-STD-1560 and all standard and normal and alternate polarizations are fully supported. Best of all, defense and commercial aerospace customers, as well as land and marine engineers and procurement specialists may now specify these missioncritical interconnects directly from Glenair—the recognized service, support, and availability leader for the interconnect industry.

#### **DLA QPL MIL-DTL-38999 SERIES III NOW AVAILABLE FROM GLENAIR**

- Qualified environmental plug, jam nut, and square flange receptacles
- All 1560 crimp-contact insert arrangements fully supported
- W, F, T and G plating classes, plus Glenair COTS equivalents
- A 100% made in America interconnect: No foreignsourced materials, component parts, or assembly labor employed

Glenair: Made in America since 1956

## Industry standard harsh environment connectors

#### MECHANICAL, ENVIRONMENTAL, AND ELECTRICAL PERFORMANCE

MIL-DTL-38999 Series III (Glenair Series 233-105) offers outstanding interconnect performance for mission-critical military and commercial applications.

- Electromagnetic compatibility (EMC): metal-to-metal coupling, plug grounding fingers, and conductive shell finishes deliver excellent shielding performance up to 65 dB at 10 GHz
- Contact protection: scoop-proof design prevents inadvertent damage to pin contacts during mating
- Environmental performance: interfacial and wire grommet seals deliver IP67 level sealing, even at high altitude
- Corrosion resistance: connector shell finishes—from Cad over Nickel to Class T Nickel-PTFE offer outstanding corrosion resistance
- Mating: triple-start stub ACME threads provide fast mating and resist galling and cross-threading
- Anti-Decoupling: better-than-QPL vibration and shock performance
- Supported contacts: from size #22D signal to #12 shielded Coax
- Advanced COTS versions: high-performance series (Glenair SuperNine®) available for improved durability, ease of termination, EMI/RFI filtering and more

## Mechanical Performance Features

Threaded Triple-Start Coupling Design

Nine Shell Sizes, Range 9 – 25

Scoop-Proof Shell Design

Full Mate Visual Indicator

Integrated Contact Retention System

Interfacial and Grommet Seals

**Fully Shielded** 

Lightning Strike

Shell-to-Shell Bottoming

Threaded/Toothed Accessory Interface

Full Range of Assembly Tools
