Four Reasons to Select Glenair for Your Next Micro/ Nano Flex Circuit Project

TFull Spectrum Product Offering

Glenair offers a complete range of miniaturized printed circuit board connectors with highreliability TwistPin contacts. We supply both

through-hole and surface mount designs in every angle and mounting style for integration into single-sided, double-sided and multilayered flex circuitry.

Unsurpassed Experience in Micro/ Nano Flex Circuit Production Glenair has been integrating Micro-D

and Nanominiature connectors into flex circuitry for over 30 years. Our technical capabilities include design and layout of turnkey assemblies as well as the production of custom-configured micro and nano interconnects for maximum size and weight savings.

3 Application Design Our turnkey Micro-D and Nanominiature flex circuit assemblies are produced to exacting specifications. Customer-supplied designs are reviewed and revised to insure the most advantageous utilization of EMI shielding, polarization, strain-relief and connector packaging technologies. At Glenair, the final design solution is optimized to meet the exact mechanical and electronic requirements of the application environment.

Termination Expertise

Glenair's experienced workforce is trained and qualified to produce consistently reliable circuit terminations using the most advanced techniques and technologies, including automated solder reflow systems.
