806-039 Jam-nut PCB receptacles with potted-in-place printed circuit board terminals, integral standoffs, and threaded holes for secure attachment to rigid or flex circuit boards. Series supports hybrid signal and high-speed / RF shielded contacts including Glenair Signature El Ochito, Quadrax, 50 Ohm Coax, and differential Twinax for 10GbE, HDMI, USB 3.0, and RF applications. Micro miniature Series 806 connectors save size and weight compared to legacy aerospace-grade circular connectors. These hybrid insert arrangement connectors are suitable for high-speed digital and standard signal applications in unpressurized aircraft zones subject to vibration, moisture, altitude, and temperature extremes.

The Ochito octaxial contact has a color-coded insulator signifying the data protocol. White is used for 10 Gb Ethernet, blue is used for USB 3.0, and red is used for multi gigabit 100 ohm protocols including HDMI, DisplayPort and SATA. The connector part number includes a protocol code from Table III. This code determines specific contact position for every combination of protocol.
