

REVERSE-BAYONET Super ITS - RJ45 SuperSeal™ and Super ITS - USB SuperSeal™ Connector Selection Guide

Super ITS - SuperSeal™ Connector Overview

Super ITS - SuperSeal field RJ45 and USB connectors provide high-performance sealing, superior grounding / EMC, and a broader range of contact and wire termination solutions in a ruggedized reverse-bayonet connector package. Commercial protocols supported include Cat 5e Ethernet and USB 2.0

Super ITS - RJ45 SuperSeal™ Connectors

Advanced-performance, precision machined reverse-bayonet connectors for field Ethernet applications providing robust sealing against dust and debris for commercial-grade RJ45 inserts. IP67 rated in the unmated condition. Plug grounding fingers for improved shell-to-shell grounding and EMI protection are standard.
