

TurboFlex is an ultra-flexible and rugged power cable solution—ideal for high-voltage electrical distribution and propulsion applications such as battery plant-to-inverter-to-electric motor cables for eVTOL aircraft. Constructed from rope-lay configuration copper or aluminum wire and jacketed with Glenair signature Duraelectric insulation, TurboFlex cables are optimized for use in an ecosystem of Glenair signature contact and connector technologies. Turnkey connectorized or lugged cable assemblies – fully tested and ready for immediate use – provide reliable high-temperature tolerant performance up to 4500 VAC. TurboFlex cable with Duraelectric jacketing is a PFAS-free, zero-halogen solution.

Duraelectric™ is the high-performance TurboFlex® jacketing material. Different compounding formulas are optimized for weight savings, radiation resistance, ultra low temperatures, conductivity, and immersion in chemical or caustic fuels. Available in a broad range of colors including safety orange.

STANDARD TURBOFLEX “R” VS. TURBOFLEX “M”

TurboFlex cables are jacketed with Duraelectric insulation, which contributes significantly to the flexibility of the product. Available wire cores include rope-lay (TurboFlex “R”) for maximum flexibility, and M22759 wire (TurboFlex “M”) with the flight-heritage of a mil-spec core and a slightly larger bend radius, but far superior flexibility compared to standard M22759 wire.

Ultra-flexible
TurboFlex “R”
rope-lay cable

ULTRA-FLEXIBLE TurboFlex Rugged Power Cable

Rope-lay · stranded-core · copper or aluminum conductor

ULTRA-FLEXIBLE ROPE-LAY AND STRANDED-CORE POWER CABLE FOR
HIGH-POWER ELECTRICAL INTERCONNECT APPLICATIONS

961-004

TurboFlex “R” Copper Core, Duraelectric™ D Insulation,
2000 VAC

967-600

TurboFlex “M” AS22759-type conductor, Duraelectric™ D
Insulation, 725–2875 VAC

961-044

TurboFlex “R” Copper Core, Duraelectric™ D Insulation,
Fabric Overbraid 2000–4500 VAC

961-033

TurboFlex “R” Copper Core, Duraelectric™ K Insulation,
1000–3000 VAC, -110°C – +200°C

961-139

TurboFlex “R” Copper Core, Dual-layer Duraelectric™ D
Insulation/ Duraelectric F Jacket, 1000 VAC

967-601

TurboFlex “M” Copper Core, Dual-Layer Duraelectric™ D
Jackets and Metallic Braided Shield, 725–2875 VAC

961-035

TurboFlex “R” Copper, Dual-Layer Duraelectric™ D Insulation
and Duraelectric™ D Jacket, 3000 VAC

961-007

TurboFlex “R” Copper Core, Dual-Layer Duraelectric™ D
Jackets and Metallic Braided Shield, 3000 VAC
